

## Why EHP?

# We're Ranked 2nd of 94 Toxicology Journals

As one of the top journals in the field, we publish research in a wide variety of toxicology-related disciplines, including:

- Exposure science and modeling
- Mechanistic toxicology
- *In vitro* and alternative methods
- Environmental epidemiology
- Risk assessment

*Environmental Health Perspectives*  
is published with support from  
the National Institute of  
Environmental Health Sciences,  
part of the National Institutes of Health

**8.44** IMPACT FACTOR

According to the 2018 *Journal Citation Reports*

## Our Primary Aim

At *Environmental Health Perspectives (EHP)*, we publish high-quality content that substantially advances our understanding of environmental health:

- Original research
- Reviews
- Commentaries
- News
- Podcasts
- Curated collections
- Selected content translated into Chinese

As leaders in fully transparent scientific reporting, we are also committed to the highest standards in peer review and publication ethics.

## We Promote Excellence

- 8.44 Journal Impact Factor
- 9.87 5-Year Impact Factor
- Full open access
- Comprehensive editorial review
- Committee on Publication Ethics (COPE) member

## We Support Authors

- No author fees
- Author-friendly embargo policy
- Potential inclusion in a Science Selection, podcast, or curated collection
- Promotion on social media

## We're Seeking High-Quality Submissions
